## CHINESE MAURADERS.

## Reports of Outrages From all Over the Empire.

SHANGHAI, Feb. 15.—Authentic reports have reached here of recent date from all sections of the Chinese empire, indicating that riot and attack upon foreigners is the order of the day. The attacks seem to be those of isolated ruffians rather than a concerted action on the part of the populace.

In one of the central provinces, Hope, a riot was instigated by the students of the military academy. Property was stolen and the members of the several natives' churches were scattered over the country. Seventeen leaders of the riots have been arrested and are standing trial. A chapel of the Wesleyan mission was destroyed during the riot.

From Soochow, in central China, comes the authoritative information that in the collection of rentals in and around Soochow there has been a persistent refusal on the part of the natives, and that an altercation occurred in which a woman was killed and others were injured. The native magistrates themselves, when attempting to hear these cases, have been mobbed, pelted with mud, and compelled to flee from the court of justice.

In Canton, from the very south of China, where most of the travelling is by the rivers and canals, steam launches and boats carrying foreigners have been repeatedly held up by ruffians and recently a European woman missionary was brutally treated, her boat being held up in the river. The men, overpowering her coolies, boarded it by force, and robbing her of her money, left her in a sorry plight. From Formosa, just off the coast of central China, authentic reports come that the whole of the country is disturbed. Repeated attacks by armed bands of robbers are being reported day by day. Travel in the interior is unsafe at the present time.

## RAILROAD RATE BILL.

Mileage Measure Introduced by Senator

Lect.

COLUMBUS, O., Feb. 15.—Senator Lott yesterday afternoon introduced a bill to prevent discrimination in passenger rates on railroads. It provides that all passengers shall be charged the same fare, exceptions being made to cover short lines, commuters and excursion fares. It reduces the maximum rate and provides that children under 12 years and over 6 shall be carried at half fare and children under six in charge of adults shall be carried free. The bill practically adopts the antidiscrimination freight rate provision of the interstate commerce bill to the passenger traffic in Ohio.

## TIPPECANOE CLUB.

Cleveland Organization Files Its Answer

In the Injunction Proceedings.

CLEVELAND, Feb. 15.—The Tippecanoe club has filed an answer to the petition or Mayor McKelvey, Senator Burke and Representatives Mason and Bramley seeking to restrain the club from expelling them from the organization. The answer says the accused members of the club upon joining that body agreed to sustain the honor of the organization; that they did not so sustain the integrity of the club by consorting with Democrats at the house and senate caucus at Columbus.

## OPEN SESSIONS.

Suffrage Committee Louisiana Constitutional Convention Will Have Them.

NEW ORLEANS, Feb. 15.—The constitutional convention has adopted a resolution inviting William Jennings Bryan to make an address before its members. The suffrage committee has decided that all its hearings shall be in public. There was apparent among the members of the committee a determination to let the world know precisely how the convention proposed to approach and treat the suffrage question.

The widow appealed to the sympathy of even the most callous-hearted. Here is a woman still in the springtime of life, deprived of the stay and support upon which she had every right to depend, and her future overshadowed by the loss of the one man in all the world upon whom she had centered her love and affection. A man has no right to sacrifice his life in the mad race for money, by neglecting his bodily health. A man owes it to himself and to his wife and children to live a long and helpful life. If a man would live he must keep healthy.

Health is a matter of a little patch here and there. Look after the little ailments and the big ailments will take care of themselves. They will never come. Dr. Pierce's Golden Medical Discovery keeps the body in perfect health. It promptly eradicates the little ailments that bring serious illness. If the serious malady has already arrived it promptly cures it by removing the cause. It corrects all disorders of the digestion, invigorates the liver and makes the appetite keen and hearty. It makes the assimilation of food perfect and supplies the blood with the life-giving elements that build new and healthy tissue and firm muscles. It tones and builds up the nerves. It drives impurities and disease germs from every organ of the body. It cures all diseases due to overwork and worry and faulty nutrition. It is an unfailing remedy for weak lungs, spitting of blood, shortness of breath, severe cough, bronchitis, asthma and kindred affections. It cures 95 per cent of all cases of consumption.

Mr. Isaac E. Downs, of Spring Valley, Rockland Co., N. Y., writes: "For three years I had suffered from that terrible disease, consumption, and heart-disease. Before taking Dr. Pierce's Golden Medical Discovery I had wasted away to a skeleton; could not sleep nor rest, and many times wished to die to be out of my misery. Step by step, the signs and realities of returning health slowly but surely developed themselves while taking the 'Discovery.' Today I tip my scales at 170, and am well and strong. The 'Golden Medical Discovery' has also cured my daughter of a very bad case located on the thigh."

## ANNEXATION DEBATE

## Senator Pettigrew Concludes His Three Days' Speech.

## VIEWS OF PROCTOR OF VERMONT

B. Book of Wisconsin and Overstreet of Indiana Elected Chairman and Secretary of the Republican Congressional Committee—Democratic Organization Completed.

WASHINGTON, Feb. 15.—The senate devoted almost four hours in executive session yesterday to the consideration of the Hawaiian treaty. The principal speech was made by Senator Pettigrew, this being the third installment of his remarks upon the subject.

Senator Pettigrew contended that the downfall of Queen Liliuokalani's government was due to a conspiracy on the part of Minister Stevens, representing the United States, and a few citizens of Honolulu, of whom President Dole was one, who were backed by marines from a United States battleship.

He argued that at that time there was no armed force on the island opposed to the queen's government except the United States marines, "and," said the senator, "if the islands were as rich as the dreams of avarice, and their acquisition as desirable as that of Louisiana, we could not take title from a government set up there by ourselves, without submitting the question to a vote of the Hawaiian people. To do this," he continued with emphasis, "would be an international crime which would place us on a level with Great Britain in her subjection of the weaker nations of the earth, which would be an abandonment of the position and policy of our government from its earliest history."

Mr. Pettigrew also contended that the passage of the McKinley tariff law had been the direct cause of the revolution by which the queen's government was overthrown, the motive being to secure the bounty of 2 cents per pound on domestic sugar which the law provided. He quoted a letter from Minister Stevens saying that the provision for this sugar bounty had ruined the sugar business of the islands unless they could be annexed to the United States and cited other authorities to maintain this contention.

Senator Proctor (Vt.) followed with a brief speech in favor of annexation. He devoted himself exclusively to the military phase of the question. He cited the fact that England has strongly fortified posts all along our Atlantic seaboard, beginning with Halifax and taking in the Bermudas and the West Indies. He also called attention to the strong fortress at Equinam, and said that if England should possess the Hawaiian islands, as she might easily do in case we let this opportunity to acquire them pass by, her drumbeat would be heard almost entirely around the United States and that she would be able to attack us from her own territory in any direction.

## BARCOCK AND OVERSTREET.

Chairman and Secretary of Republican Congressional Committee.

WASHINGTON, Feb. 15.—The Republican congressional committee met in the lobby of the house last night and organized for the coming campaign. Representative Babcock of Wisconsin was elected chairman for the third time; Representative Sherman of New York was elected vice chairman; Representative Overstreet of Indiana, secretary, and Colonel W. B. Thompson of Washington city, treasurer. Chairman Babcock was authorized to select an executive committee, after which there was a brief discussion of party issues.

## House and Senate.

WASHINGTON, Feb. 15.—The senate foreign committee reported unfavorably on Mr. Allen's resolution to amend the consul appropriation bill by recognizing the belligerency of Cuba. Mr. Morgan's resolution calling for information as to whether any agent accredited to this government by the Cuban autonomous government had been recognized by it was adopted. The senate then went into executive session. In the house a resolution of inquiry was adopted calling on the secretary of state for information as to the progress Spain is making toward relieving the concentrated and to induce them to accept autonomy.

B. Fleming of Kentucky, first assistant secretary; Joseph Orl of Georgia, second assistant secretary.

## HIGHWAY ROBBERS.

They Get No Money, but One of Them Gets Knocked Down.

BATAVIA, O., Feb. 15.—Two attempts at highway robbery were made near here. Joseph Halbisch, a young man living about half a mile above town, was held up by two men and searched. The robbers failed to get any money.

A short time later Thomas Eggleton, tenant of the farm of M. Duckwall, while en route home, was also held up. After a fruitless search for money they allowed him to go. Eggleton, who is a powerful man physically, thereupon struck one of the highwaymen, knocking him down, when the other took to his heels and ran away. Strong suspicions are entertained that home talent was engaged in the attempted robberies.

## SHERIFF MARTIN'S TRIAL.

Prosecution Still Taking Testimony in the Lattimer Shooting Case.

WILKESBARRE, Pa., Feb. 15.—The trial of Sheriff Martin and his deputies for shooting miners at Lattimer during the big strike last fall, was resumed yesterday.

George Reseter, in a long story of the shooting, brought out a fact not given before that at the firing of the first shot the flagbearer at the head of the column of the strikers fell dead. The witness did not know the man's name.

Andrew Silver, No. 1, as he is called to distinguish him from his nephew No. 2, told how after the volley fired by the deputies at Lattimer, a large number of them ran after the strikers and kept firing as they ran. Under severe cross-examination he finally stated that he was at an artesian well at Harwood when the firing took place. That well is quite out of sight of any part of the scene.

## CORTES TO BE CONVENED.

Consul General Lee Considers the Advisability of Founding an Orphan Asylum in Cuba—General Weyler Heard From Again—Thought to Have Been the Dauntless.

MADRID, Feb. 15.—The cabinet met last evening and discussed the present state of the war in Cuba and the De Loma matter at great length.

It was decided to publish a decree accepting the resignation of Senor Dupuy De Loma as minister at Washington, and appointing Senor Luis Polo Bernabe as his successor.

A decree will also be issued convening the chambers before the end of this month, so as to enable the election of the new cortes to occur on March 20.

Senor Gallon, the minister of foreign affairs, informed the cabinet that United States Minister Woodford had just handed him a note referring to Senor Dupuy De Loma's letter and to the meaning of several paragraphs in it.

The note from Minister Woodford demanded that Spain should formally disavow the insults to President McKinley, contained in Senor Dupuy De Loma's letter to Senator Calajals.

The cabinet council last night, it is reported, decided unanimously to reply to Minister Woodford that Senor De Loma's spontaneous resignation and the terms of the decree accepting it were considered sufficient satisfaction. It is understood that Minister Woodford received this intimation and dispatched a long cipher telegram to Washington.

## CUBAN ORPHAN ASYLUM.

Fitzhugh Lee Considering the Advisability of Founding One.

NEW YORK, Feb. 15.—A letter has been received by The Christian Herald from Consul General Fitzhugh Lee in Havana, relative to the founding of an orphan asylum in Cuba. General Lee said:

I have considered the advisability of renting a large and suitable building for the purpose of founding a destitute orphan asylum, where the little starving children who have no parents or relatives to watch over and protect them, can be placed, and where they will be fed and well cared for and perhaps later given some sort of education. I find that I can rent a most commodious establishment, with a large bath and all conveniences, as well as ground around it, which the children can use for air and exercise. I would, through humane agents, collect these little ones and have them transferred to the establishment, where they could be in charge of nurses and other suitable attendants.

The Christian Herald, in reply, cabled that it would pay the rent of the proposed asylum for a year and furnish all supplies, and guarantee to raise all other expenses for the institution.

We made a slight mistake in our items last week. It was Ogal Pardiek and not Oma, who was visited by Frank Manion.

Bruce and Frank Murphy, accompanied by their sisters, Sylvia and Emma, visited Wm. Pardiek and wife Sunday.

One of our citizens received a comic valentine Saturday which threw him in a stuttering rage. It is queer why some men get mad when they are remembered by their friends.

February 7th the soul of Miss Amelia Teymeyer passed to the great beyond. The remains were interred in the Durand cemetery Wednesday evening in the presence of a large number of friends who had gathered to pay their last tribute of respect to one they had known long and favorably. The sorrowing relatives have the sympathy of all in their affliction.

Also! ourself and friends on the gravel "cowpath" went down in defeat Thursday, because of conditions unfavorable were against us. Every "deadhead" from Brownstown favored the roads because of large pay and little labor customary upon the construction of roads. Also many of the opposition could not come out on account of work.

Took a Severe Cold After the Big Fire. After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. ## SUCCESS ASSURED.

The Old Homestead Company Puts Canvassers in the Field.

If there existed a doubt in the minds of the Old Homestead Co. that their efforts would not be properly appreciated in securing and presenting such a high-class instructive and moral play, that doubt was dispelled after the result of the first forenoon's canvass of the sale of tickets was made known. Six of the boxes and over 100 tickets downstairs were sold. It once more demonstrates the fact that all public-spirited citizens and people of the city appreciate and encourage this good work of our young people in supporting and building up the Public Library. An institution from which, small as it is, over three hundred volumes of first-class literature are drawn and read every month by the people of Seymour. This dramatic association has already added nearly five hundred volumes, besides furnishing the necessary support to keep it going. Too much encouragement can not be given to this enterprising band of workers. We hope that not only every seat in the house will be sold, as is practically assured from yesterday afternoon's result, but that every available space will be filled with people standing who wish to encourage this work. From an intimation received from an officer of the Company we would advise all to purchase a coupon of the canvassers, as all holding coupons will be sure of good seats.

**The "Sorosio Club."**  
The "Sorosio Club" was entertained at the home of Mr. and Mrs. Fred. Klippel, on North Chestnut street, last night. The decorations were in rose and white, this being the club colors. The evening was spent in social amusements, music, etc.

The most laughable was the auction of parcels, by Mr. Klippel, and eating chocolates attached to one-yard-long silk strings, without the use of their hands.

Elegant refreshments were served and at a late hour the guests departed for their homes, declaring Mr. and Mrs. Klippel as being a splendid host and hostess.

**Back to Jail.**  
James Lewis, who was taken from the Columbus jail Sunday by the sheriff and kept in hiding all during the night was taken back to his cell on Monday. It does not now seem probable that the friends of Williams about Jonesville will avenge the crime of Lewis by resorting to mob violence. John Ford, the proprietor of the Jonesville saloon, cards the Columbus Times that "he keeps a quiet and orderly place," and all reports to the contrary are untrue.

Lewis will have a preliminary hearing Feb. 21.

**Off For Klondike.**  
Last night J. L. Davis, who has been employed in the office of the Bli-h Milling Company for several months, started for the Klondike gold field. He first goes to his home at Helena, Montana, where he will spend a few days, after which he will journey on to Dawson City. His father, who has had extensive mining experience in the west, much of the time since the war, is already in the Klondike territory and now owns two claims near Dawson City, which promise rich returns.

## THE DATE DATE FIXED.

The Democratic City Ticket Will be Named March 21.

It is settled. The Seymour democratic committee will hold a primary election. The committee came to that conclusion last night after much deliberation and fixed March 21 as the date for the several candidates to test their popularity. Thus that anticipated ratification meeting of the state makers has been declared off. The smile and the frown are noticed among the candidates today are conclusive proofs of "fix blood."

Edward Bok to Lecture.

Edward Bok, the famous young editor of the Ladies' Home Journal, has finally been persuaded to appear on the lecture platform, and he will make his debut as a lecturer in the South next October. He will lecture in twenty of the principal cities and in a few of the neighboring western states. The title of his lecture will be "The Keys to Success"—the most interesting subject he could have found to talk about. Mr. Bok is, perhaps, the most successful and popular young man in America. Up to this time he has declined the most flattering term to lecture, but last week the Southern Lyceum Bureau, of Louisville, succeeded in closing a contract with the Philadelphia editor. Mr. Bok has chosen the southern field entirely because he wishes to acquaint himself with the South and its people and has stipulated that his lecturing tour shall be so arranged as to allow him time for social engagements and observation. He will not speak more than three times each week, and will spend seven weeks in the south.

## HENRY IRVING AS A JOKER.

He and Toole Made a Tipsey Waiter Repent Temporarily.

Sir Henry Irving tells an amusing story of a joke that he, with Mr. Toole and a third party, played some years ago at a Glasgow hotel. After their work they were supping at the hotel, where, says Sir Henry, "there was in the room a high screen. The instant the waiter was gone we commenced operations. We stripped the silverware, of which there was a tolerable supply, from the table and placed it behind the screen. We then opened the window and turned out the gas, and finally all got under the table. We had only to remain in our cramped position a few minutes before we heard the unsteady feet of our friend, the waiter, along the passage.

"The darkened room amazed him and the cold air from the window seemed to strike him with affright.

"'Goodness!' exclaimed he, 'it's thieves they are. A thocht as much frae the luiks o' them, and frae their gay talk and their laughter. Eh, but I'm a ruined man. A wish a' had nae tae the hale o' that last bottle. Hear! Hear! Thieves! Thieves! Murder! Thieves! Thieves!' and shouting at the top of his voice he ran out of the room and along the passage.

"The minute he had gone we shut the door, lit the gas, restored the silver to the table and sat round as before, enjoying a quiet cigar. Presently there was a confused murmur along the passage. It grew louder and louder, and in poured a truly motley throng, mostly half dressed, consisting of the manager, two men in bare legs and slippers, and a lady with a blanket, in the alarm of fear caught up, followed by our agonized friend, the waiter. One man was armed with a poker and the other carried a bronze statuette ready to hurl at the thief. As they entered we all sat back and looked at them in well feigned amazement, and Toole said to the astonished and bewildered manager, 'Do you always come in this way with your friends when a gentleman asks for his bill?'"—London Telegraph.

## Vegetable Dropsy.

Some experiments at Cornell university have aroused much interest on account of the development of what appears to be a form of plant dropsy. Tomatoes grown in the warm, moist air of the forcing houses had leaves that were swollen and semitransparent. The swelling continued until the veins of the leaves burst and considerable liquid flowed out. This was caused by too much water at the roots and an oversupply in the air. The leaves were not able to give off the water supplied from the roots and stalks, and the congested condition of the leaves and subsequent bursting of the veins was a true type of a dropsical condition.—New York

## An Escaloped Fish.

An escaloped fish which Miss Parlos gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1 1/2 gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

## Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

**THE AMERICAN MONTHLY REVIEW OF NEWS**

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five columns; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

## CHINESE MAURADERS.

Reports of Outrages From all Over the Empire.

SHANGHAI, Feb. 15.—Authentic reports have reached here of recent date from all sections of the Chinese empire, indicating that riot and attack upon foreigners is the order of the day. The attacks seem to be those of isolated ruffians rather than a concerted action on the part of the populace.

In one of the central provinces, Hupe, a riot was instigated by the students of the military academy. Property was stolen and the members of the several natives' churches were scattered over the country. Seventeen leaders of the riots have been arrested and are standing trial. A chapel of the Wesleyan mission was destroyed during the riot.

From Soochow, in central China, comes the authoritative information that in the collection of rentals in and around Soochow there has been a persistent refusal on the part of the natives, and that an altercation occurred in which a woman was killed and others were injured. The native magistrates themselves, when attempting to hear these cases, have been mobbed, pelted with mud, and compelled to flee from the court of justice.

In Canton, from the very south of China, where most of the travelling is by the rivers and canals, steam launches and boats carrying foreigners have been repeatedly held up by ruffians and recently a European woman missionary was brutally treated, her boat being held up in the river. The men, overpowering her coolies, boarded it by force, and robbing her of her money, left her in a sorry plight. From Formosa, just off the coast of central China, authentic reports come that the whole of the country is disturbed. Repeated attacks by armed bands of robbers are being reported day by day. Travel in the interior is unsafe at the present time.

## RAILROAD RATE BILL.

Mileage Measure Introduced by Senator Lott.

COLUMBUS, O., Feb. 15.—Senator Lott yesterday afternoon introduced a bill to prevent discrimination in passenger rates on railroads. It provides that all passengers shall be charged the same fare, exceptions being made to cover short lines, commutators and excursions. It reduces the maximum rate and provides that children under 12 years of age shall be carried at half fare and over 12 years of age at full fare. The bill practically adopts the antidiscrimination freight rate provision of the interstate commerce bill to the passenger traffic in Ohio.

## TIPPECANOE CLUB.

Cleveland Organization Files Its Answer in the Injunction Proceedings.

CLEVELAND, Feb. 15.—The Tippecanoe club has filed an answer to the petition or Mayor McK. son, Senator Burke and Representatives Mason and Bramley seeking to restrain the club from expelling them from the organization. The answer says the accused members of the club upon joining that body agreed to sustain the honor of the organization; that they did not so sustain the integrity of the club at the house and senate caucus at Columbus.

## OPEN SESSIONS.

Suffrage Committee Louisiana Constitutional Convention Will Have Them.

NEW ORLEANS, Feb. 15.—The constitutional convention has adopted a resolution inviting William Jennings Bryan to make an address before its members. The suffrage committee has decided that all its hearings shall be in public. There was apparent among the members of the committee a determination to let the world know precisely how the convention proposed to approach and treat the suffrage question.

## ANNEXATION DEBATE.

Senator Pettigrew Concludes His Three Days' Speech.

## VIEWS OF PROCTOR OF VERMONT

Bibbcock of Wisconsin and Overstreet of Indiana Elected Chairman and Secretary of the Republican Congressional Committee—Democratic Organization Completed.

WASHINGTON, Feb. 15.—The senate devoted almost four hours in executive session yesterday to the consideration of the Hawaiian treaty. The principal speech was made by Senator Pettigrew, this being the third installment of his remarks upon the subject.

Senator Pettigrew contended that the downfall of Queen Liliuokalani's government was due to a conspiracy on the part of Minister Stevens, representing the United States, and a few citizens of Honolulu, of whom President Dole was one, who were backed by marines from a United States battleship.

He argued that at that time there was no armed force on the island opposed to the queen's government except the United States marines, "and," said the senator, "if the islands were as rich as the dreams of avarice, and their acquisition as desirable as that of Louisiana, we could not take title from a government set up there by ourselves, without submitting the question to a vote of the Hawaiian people. To do this," he continued with emphasis, "would be an international crime which would place us on a level with Great Britain in her seizure of the weaker nations of the earth, which would be an abandonment of the position and policy of our government from its earliest history."

Mr. Pettigrew also contended that the passage of the McKinley tariff law had been the direct cause of the revolution by which the queen's government was overthrown, the motive being to secure the bounty of 2 cents per pound on domestic sugar which the law provided. He quoted a letter from Minister Stevens saying that the provision for this sugar bounty had ruined the sugar business of the islands unless they could be annexed to the United States and cited other authorities to maintain this contention.

Senator Proctor (Vt.) followed with a brief speech in favor of annexation. He devoted himself exclusively to the military phase of the question. He cited the fact that England has strongly fortified posts all along our Atlantic seaboard, beginning with Halifax and taking in the Bermudas and the West Indies. He also called attention to the strong fortress at Esquimaux, and said that if England should possess the Hawaiian islands, as she might easily do in case we let this opportunity to acquire them pass by, her drumbeat would be heard almost entirely around the United States and that she would be able to attack us from her own territory in any direction.

**BABCOCK AND OVERSTREET.**  
Chairman and Secretary of Republican Congressional Committee.  
WASHINGTON, Feb. 15.—The Republican congressional committee met in the lobby of the house last night and organized for the coming campaign. Representative Babcock of Wisconsin was elected chairman for the third time; Representative Sherman of New York was elected vice chairman; Representative Overstreet of Indiana, secretary, and Colonel W. B. Thompson of Washington city, treasurer. Chairman Babcock was authorized to select an executive committee, after which there was a brief discussion of party issues.

## House and Senate.

WASHINGTON, Feb. 15.—The senate foreign committee reported unfavorably on Mr. Allen's resolution to amend the consular appropriation bill by recognizing the belligerency of Cuba. Mr. Morgan's resolution calling for information as to whether any agent accredited to this government by the Cuban autonomous government had been recognized by it was adopted. The senate then went into executive session. In the house a resolution of inquiry was adopted calling on the secretary of state for information as to the progress Spain is making toward relieving the concentrated and to induce them to accept autonomy.

## Democrats Complete Their Organization.

WASHINGTON, Feb. 15.—At a meeting of the Democratic congressional campaign committee last night the following officers were elected, Senator White having been chosen chairman some time ago: Governor Osborne of Wyoming, vice chairman; James Kerr of Pennsylvania, secretary; Judge W. B. Fleming of Kentucky, first assistant secretary; Joseph O. of Georgia, second assistant secretary.

PRESTONSBURG, Ky., Feb. 15.—The deposition of Abbot Barnett was taken in favor of the defendant in the case of R. E. Stanly, sheriff, against his wife, Eliza H. Stanly, for divorce. Abbot Barnett was leaving the country when arrested upon attachment to testify in this case.

He testified that in 1895 he was boarding at Mr. Stanly's, teaching school; that he proposed to Stanly that he (Barnett) could get a divorce; that Stanly told him he would if he (Barnett) would court his (Stanly's) wife. ## HIGHWAY ROBBERS.

They Get No Money, but One of Them Gets Knocked Down.

BATAVIA, O., Feb. 15.—Two attempts at highway robbery were made near here. Joseph Halbisch, a young man living about half a mile above town, was held up by two men and searched. The robbers failed to get any money.

A short time later Thomas Eggleton, tenant of the farm of M. Duckwall, while en route home, was also held up. After a fruitless search for money they allowed him to go. Eggleton, who is a powerful man physically, thereupon struck one of the highwaymen, knocking him down, when the other took to his heels and ran away. Strong suspicions are entertained that home talent was engaged in the attempted robberies.

## SHERIFF MARTIN'S TRIAL.

Prosecution Still Taking Testimony in the Lattimer Shooting Case.

WILKESBARRE, Pa., Feb. 15.—The trial of Sheriff Martin and his deputies for shooting miners at Lattimer during the big strike last fall, was resumed yesterday.

George Rescoter, in a long story of the shooting, brought out a fact not given before that at the firing of the first shot the flagbearer at the head of the column of the strikers fell dead. The witness did not know the man's name.

Andrew Siver, No. 1, as he is called to distinguish him from his nephew No. 2, told how after the volley fired by the deputies at Lattimer, a large number of them ran after the strikers and kept firing as they ran. Under severe cross-examination he finally stated that he was at an artesian well at Harwood when the firing took place. That well is quite out of sight of any part of the scene.

## CORTES TO BE CONVENED.

Consul General Lee Considers the Advisability of Founding an Orphan Asylum in Cuba—General Weyler Heard From Again—Thought to Have Been the Dauntless.

MADRID, Feb. 15.—The cabinet met last evening and discussed the present state of the war in Cuba and the De Lome matter at great length.

It was decided to publish a decree accepting the resignation of Senor Dupuy De Lome as minister at Washington, and appointing Senor Luis Polo Bernabe as his successor.

A decree will also be issued convening the chambers before the end of this month, so as to enable the election of the new cortes to occur on March 20. Senor Gallon, the minister of foreign affairs, informed the cabinet that United States Minister Woodford had just handed him a note referring to Senor Dupuy De Lome's letter and to the meaning of several paragraphs in it.

The note from Minister Woodford demanded that Spain should formally disavow the insults to President McKinley, contained in Senor Dupuy De Lome's letter to Senator Calajals.

The cabinet council last night, it is reported, decided unanimously to reply to Minister Woodford that Senor De Lome's spontaneous resignation and the terms of the decree accepting it were considered sufficient satisfaction. It is understood that Minister Woodford received this intimation and dispatched a long cipher telegram to Washington.

## CUBAN ORPHAN ASYLUM.

Fitzhugh Lee Considering the Advisability of Founding One.

NEW YORK, Feb. 15.—A letter has been received by The Christian Herald from Consul General Fitzhugh Lee in Havana, relative to the founding of an orphan asylum in Cuba. General Lee said:

I have considered the advisability of renting a large and suitable building for the purpose of founding a destitute orphan asylum, where the little starving children who have no parents or relatives to watch over and protect them, can be placed, and where they will be fed and well cared for and perhaps later given some sort of education. I find that I can rent a most commodious establishment, with a large bath and all conveniences, as well as ground around it, which the children can use for air and exercise. I would, through humane agents, collect these little ones and have them transferred to the establishment, where they could be in charge of nurses and other suitable attendants.

The Christian Herald, in reply, cabled that it would pay the rent of the proposed asylum for a year and furnish all supplies, and guarantee to raise all other expenses for the institution.

Verdict in the Chamberlain Murder Case at Colorado Springs.

COLORADO SPRINGS, Feb. 15.—The jury in the case of Shirley D. Chamberlain, charged with the murder of Herbert M. Kay of Wisner, Neb., on Pike's Peak last August, last night brought in a verdict of murder in the first degree. The case is the most sensational one in the history of El Paso county and has attracted widespread interest owing to the place where the deed was committed. Kay had started to ascend the peak by night and his dead body was found forced into a small culvert under the cog railroad at a point about 12,000 feet above the level of the sea. The evidence against Chamberlain was circumstantial, but conclusive and the jury was out only about an hour.

## SUCCESS ASSURED.

The Old Homestead Company Puts Canvassers in the Field.

If there existed a doubt in the minds of the Old Homestead Co. that their efforts would not be properly appreciated in securing and presenting such a high-class instructive and moral play, that doubt was dispelled after the result of the first forenoon's canvass of the sale of tickets was made known. Six of the boxes and over 100 tickets downstairs were sold. It once more demonstrates the fact that all public-spirited citizens and people of the city appreciate and encourage this good work of our young people in supporting and building up the Public Library. An institution from which, small as it is, over three hundred volumes of first-class literature are drawn and read every month by the people of Seymour. This dramatic association has already added nearly five hundred volumes, besides furnishing the necessary support to keep it going. Too much encouragement can not be given to this enterprising band of workers. We hope that not only every seat in the house will be sold, as is practically assured from yesterday afternoon's result, but that every available space will be filled with people standing who wish to encourage this work. From an intimation received from an officer of the Company we would advise all to purchase a coupon of the canvassers, as all holding coupons will be sure of good seats.

## The "Sorosio Club."

The "Sorosio Club" was entertained at the home of Mr. and Mrs. Fred Klippel, on North Chestnut street, last night. The decorations were in rose and white, this being the club colors. The evening was spent in social amusements, music, etc.

The most laughable was the suction of parcels, by Mr. Klippel, and eating chocolates attached to one-yard-long silk strings, without the use of their hands.

Elegant refreshments were served and at a late hour the guests departed for their homes, declaring Mr. and Mrs. Klippel as being a splendid host and hostess.

## Back to Jail.

James Lewis, who was taken from the Columbus jail Sunday by the sheriff and kept in hiding all during the night was taken back to his cell on Monday. It does not now seem probable that the friends of Williams about Jonesville will avenge the crime of Lewis by resorting to a mob violence. John Ford, the proprietor of the Jonesville saloon, cards the Columbus Times that "he keeps a quiet and orderly place," and all reports to the contrary are untrue.

Lewis will have a preliminary hearing Feb. 21.

## Off For Klondike.

Last night J. L. Davis, who has been employed in the office of the Blith Milling Company for several months, started for the Klondike gold field. He first goes to his home at Helena, Montana, where he will spend a few days, after which he will journey on to Dawson City. His father, who has had extensive mining experience in the west, much of the time since the war, is already in the Klondike territory and now owns two claims near Dawson City, which promise rich returns.

## THE DATE DATE FIXED.

The Democratic City Ticket Will be Named March 21.

It is settled. The Seymour democrats will hold a primary election. The committee came to that conclusion last night after much deliberation and fixed March 21 as the date for the several candidates to test their popularity. Thus that anticipated ratification meeting of the state makers has been declared off. The smile and the frown as noticed among the candidates today are conclusive proofs of "fix blood."

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

### HENRY IRVING AS A JOKER.

He and Toole Made a Topsy Turvy Repent Temporarily.

Sir Henry Irving tells an amusing story of a joke that he, with Mr. Toole and a third party, played some years ago at a Glasgow hotel. After their work they were supping at the hotel, where, says Sir Henry, "there was in the room a high screen. The instant the waiter was gone we commenced operations. We stripped the silverware, of which there was a tolerable supply, from the table and placed it behind the screen. We then opened the window and turned out the gas, and finally all got under the table. We had only to remain in our cramped position a few minutes before we heard the unsteady feet of our friend, the waiter, along the passage.

"The darkened room amazed him and the cold air from the window seemed to strike him with affright.

"'Goodness!' exclaimed he, 'it's thieves they are. A throb as much free the larks of them, and free their gay talk and their laughter. Eh, but I'm a ruined man. A wish a' had nae taen the hale o' that last bottle. Hear! Hear! Thieves! Thieves! Murder! Thieves! Thieves!' and shouting at the top of his voice he ran out of the room and along the passage.

"The minute he had gone we shut the door, lit the gas, restored the silver to the table and sat round as before, enjoying a quiet cigar. Presently there was a confused murmur along the passage. It grew louder and louder, and in poured a truly motley throng, mostly half dressed, consisting of the manager, two men in bare legs and slippers, and a lady with a blanket, in the alarm of fear caught up, followed by our agonized friend, the waiter. One man was armed with a poker and the other carried a bronze statuette ready to hurl at the thief. As they entered we all sat back and looked at them in well feigned amazement, and Toole said to the astonished and bewildered manager, 'Do you always come in this way with your friends when a gentleman asks for his bill?'—London Telegraph.

### Vegetable Dropsy.

Some experiments at Cornell university have aroused much interest on account of the development of what appears to be a form of plant dropsy. Tomatoes grown in the warm, moist air of the forcing houses had leaves that were swollen and semitransparent. The swelling continued until the veins of the leaves burst and considerable liquid flowed out. This was caused by too much water at the roots and an over-supply in the air. The leaves were not able to give off the water supplied from the roots and stalks, and the congested condition of the leaves and subsequent bursting of the veins was a true type of a dropsical condition.—New York

### An Escaloped Fish.

An escaloped fish which Miss Parlow gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The slightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I kept them at hand and a single dose dispels any old symptoms."

Bruce and Frank Murphy, accompanied by their sisters, Sylvia and Emma, visited Wm. Pardieck and wife Sunday. One of our citizens received a comic valentine Saturday which threw him in a stuttering rage. It is queer why some men get mad when they are remembered by their friends.

February 7th the soul of Miss Amelia Teymeyer passed to the great beyond. The remains were interred in the Durland cemetery Wednesday evening in the presence of a large number of friends who had gathered to pay their last tribute of respect to one they had known long and favorably. The sorrowing relatives have the sympathy of all in their affliction.

Also! ourself and friends on the gravel "cowpath" went down in defeat Thursday, because of conditions unfavorable were against us. Every "deadhead" from Brownstown favored the roads because of large pay and little labor customary upon the construction of roads. Also many of the opposition could not come out on account of work.

## SUCCESS ASSURED.

The Old Homestead Company Puts Canvassers in the Field.

If there existed a doubt in the minds of the Old Homestead Co. that their efforts would not be properly appreciated in securing and presenting such a high-class instructive and moral play, that doubt was dispelled after the result of the first forenoon's canvass of the sale of tickets was made known. Six of the boxes and over 100 tickets downstairs were sold. It once more demonstrates the fact that all public-spirited citizens and people of the city appreciate and encourage this good work of our young people in supporting and building up the Public Library. An institution from which, small as it is, over three hundred volumes of first-class literature are drawn and read every month by the people of Seymour. This dramatic association has already added nearly five hundred volumes, besides furnishing the necessary support to keep it going. Too much encouragement can not be given to this enterprising band of workers. We hope that not only every seat in the house will be sold, as is practically assured from yesterday afternoon's result, but that every available space will be filled with people standing who wish to encourage this work. From an intimation received from an officer of the Company we would advise all to purchase a coupon of the canvassers, as all holding coupons will be sure of good seats.

### The "Sorosia Club."

The "Sorosia Club" was entertained at the home of Mr. and Mrs. Fred Klippel, on North Chestnut street, last night. The decorations were in rose and white, this being the club colors. The evening was spent in social amusements, music, etc.

The most laughable was the auction of parcels, by Mr. Klippel, and eating chocolates attached to one-yard-long silk strings, without the use of their hands.

Elegant refreshments were served and at a late hour the guests departed for their homes, declaring Mr. and Mrs. Klippel as being a splendid host and hostess.

### Back to Jail.

James Lewis, who was taken from the Columbus jail Sunday by the sheriff and kept in hiding all during the night was taken back to his cell on Monday. It does not now seem probable that the friends of Williams about Jonesville will avenge the crime of Lewis by resorting to mob violence. John Ford, the proprietor of the Jonesville saloon, cards the Columbus Times that "he keeps a quiet and orderly place," and all reports to the contrary are untrue.

Lewis will have a preliminary hearing Feb. 21.

### Off For Klondike.

Last night J. L. Davis, who has been employed in the office of the Blith Milling Company for several months, started for the Klondike gold field. He first goes to his home at Helena, Montana, where he will spend a few days, after which he will journey on to Dawson City. His father, who has had extensive mining experience in the west, much of the time since the war, is already in the Klondike territory and now owns two claims near Dawson City, which promise rich returns.

### THE DATE DATE FIXED.

The Democratic City Ticket Will be Named March 21.

It is settled. The Seymour democratic committee will hold a primary election. The committee came to that conclusion last night after much deliberation and fixed March 21 as the date for the several candidates to test their popularity. Thus that anticipated ratification meeting of the state makers has been declared off. The smile and the frown as noticed among the candidates to lay are conclusive proofs of "fix blood."

### HENRY IRVING AS A JOKER.

He and Toole Made a Tippy Walter Re- pent Temporarily.

Sir Henry Irving tells an amusing story of a joke that he, with Mr. Toole and a third party, played some years ago at a Glasgow hotel. After their work they were supping at the hotel, where, says Sir Henry, "there was in the room a high screen. The instant the waiter was gone we commenced operations. We stripped the silverware, of which there was a tolerable supply, from the table and placed it behind the screen. We then opened the window and turned on the gas, and finally all got under the table. We had only to remain in our cramped position a few minutes before we heard the unsteady feet of our friend, the waiter, along the passage.

"The darkened room amazed him and the cold air from the window seemed to strike him with affright.

"'Goodness!' exclaimed he, 'It's thieves they are. A thocht as much frae the luiks o' them, and frae their gay talk and their laughter. Eh, but I'm a ruined man. A wish a' had nae taen the hale o' that last bottle. Hear! Hear! Thieves! Thieves! Murder! Thieves! Thieves!' and shouting at the top of his voice he ran out of the room and along the passage.

"The minute he had gone we shut the door, lit the gas, restored the silver to the table and sat round as before, enjoying a quiet cigar. Presently there was a confused murmur along the passage. It grew louder and louder, and in poured a truly motley throng, mostly half dressed, consisting of the manager, two men in bare legs and slippers, and a lady with a blanket, in the alarm of fear caught up, followed by our agonized friend, the waiter. One man was armed with a poker and the other carried a bronze statuette ready to hurl at the thief. As they entered we all sat back and looked at them in well feigned amazement, and Toole said to the astonished and bewildered manager, 'Do you always come in this way with your friends when a gentleman asks for his bill?'—London Telegraph.

### Vegetable Drops.

Some experiments at Cornell university have aroused much interest on account of the development of what appears to be a form of plant dropsy. Tomatoes grown in the warm, moist air of the forcing houses had leaves that were swollen and semitransparent. The swelling continued until the veins of the leaves burst and considerable liquid flowed out. This was caused by too much water at the roots and an over supply in the air. The leaves were not able to give off the water supplied from the roots and stalks, and the congested condition of the leaves and subsequent bursting of the veins was a true type of a dropsical condition.—New York

### An Escaloped Fish.

An escaloped fish which Miss Parlos gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists 75c. Hall's Family Pills are the best.

## THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America.
